## About this area:

Siskiyou County is adjacent to Oregon in the northern region of California. Surrounding counties include Del Norte, Humboldt and Trinity to the west and southwest, Shasta to the south, and Modoc to the east. One of the largest counties in the state, more than sixty percent of Siskiyou County's land is managed by federal and state government agencies. These include the USDA Forest Service, the Bureau of Land Management, the U.S. Fish and Wildlife Service, and the California Department of Fish and Game. Siskiyou's varied natural resources support recreation and tourism industries, strongly affecting local employment trends.

**McCloud Elementary School  
School Accountability Report Card  
Reported Using Data from the 2012-13 School Year  
Published During 2013-14**

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at <http://www.cde.ca.gov/ta/ac/sa/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

## I. Data and Access

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### Additional Information

For further information regarding the data elements and terms used in the SARC see the 2012–13 Academic Performance Index Reports Information Guide located on the CDE API Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

#### **School Description and Mission Statement (School Year 2012-13)**

This section provides information about the school, its programs and its goals.

We the staff of McCloud Elementary School, in partnership with our students, parents, and community members, are committed to preparing our students for success in the present and future world

#### **Description of School and Community**

McCloud Elementary School is located in McCloud, California, a small mountain community situated at the foot of Mt. Shasta. The population of the town of McCloud is about 1,400, and the school enrollment K-8 is 71. The community is predominantly white. English is the dominant language. The town has struggled economically for the past years because of mill closures. The timber industry is no longer the main source of jobs. Many of the new jobs are in the service industry. The U.S. Forest Service employs a large number of workers. Most of these jobs are seasonal, resulting in a low economic standing for the community. Many families face months of unemployment each year. In addition, the California welfare laws have resulted in a loss of families as they move to areas where work is more easily obtained. However, the town has made a movement toward tourism as a new economic base.

McCloud Elementary School provides the following for all students: a stimulating environment, a well-maintained school plant, one administrator, 4 full-time certificated teachers and one part time teacher. The school employs classified staff for instructional aides, office, cafeteria, and custodial duties. The district provides all basic textbooks, all necessary supplies and materials, P.E. equipment, a well-stocked library, audio-visual equipment, computers and software. The District contracts with the Siskiyou County Superintendent of Schools Office for specialized services and personnel. These include a Resource Specialist, Speech and Language Specialist, School Psychologist and School Nurse and Occupational Therapist.

Our school also offers an after-school program for all of our students. Students receive a healthy snack, help with homework and the ability to participate in some interesting extra-curricular activities such as: art, sewing, computer graphics and some culinary activities. Our sports program is also linked with our after-school program. The S.A.F.E. (Siskiyou Afterschool for Everyone) program begins at 12:30 P.M. for our kindergarteners, at 2:45 for the 1st to 3rd graders, and at 3:00 for all other students.

#### **Opportunities for Parental Involvement (School Year 2012-13)**

This section provides information on how parents can become involved in school activities, including contact information pertaining to organized opportunities for parent involvement.

**Contact Person Name:** Shelley, **Contact Person Phone Number** (530) 964-2133

The Governing Board recognizes that parents/guardians are their children's first and most influential teachers, and that continued parental involvement in the education of children contributes greatly to student achievement and a positive school environment.

The McCloud Community PTO helps defray costs due to statewide cuts. The PTO officers are very active in organizing events for the school and community and are responsible for helping educate our parents about the needs of our school. The PTO has paid for field trips and special events that our students might not otherwise have enjoyed without their help.

Our school also has had the benefit of several parent groups and corporations donating to support our Young Imaginations music program. The Chamber of Commerce and Campbell Timberland Management's "Grow the Good" division donated money to support our music program, Young Imaginations. The McCloud High School Alumni Association, the American Legion Women's Auxiliary and other business owners also contribute funds to support enrichment activities in the school. Some other examples of our parent and community involvement occur when parents, alumni and community members attend our McCloud After School program to share their expertise in a variety of areas.

**Federal Intervention Program (School Year 2013-14)**

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations Web page: <http://www.cde.ca.gov/ta/ac/ay/tidetermine.asp>.

Indicator	School	District
Program Improvement Status	Not in PI	Not In PI
First Year of Program Improvement		
Year in Program Improvement		
Number of Schools Currently in Program Improvement		0
Percent of Schools Currently in Program Improvement		0.0
